

Xerox Photocopier Machine

The Xerox Photocopier Machine is a high-performance multifunction office device designed for professional printing, copying, and scanning applications. This advanced machine is suitable for commercial offices, print centers, educational institutions, and corporate environments where efficient document handling is essential. The machine delivers sharp print quality, fast output speed, and reliable performance for high-volume workloads. Its advanced touchscreen control panel and multiple paper trays improve workflow efficiency while supporting various paper sizes and document finishing options. Key Features: High-speed printing and photocopying Multifunction capabilities: Print, Copy, and Scan Large paper handling capacity Advanced digital touchscreen display Professional document finishing options Suitable for office and commercial use Energy-efficient and durable construction

Specification	Details
Product Type	Photocopier Machine
Brand	Xerox
Functions	Print, Copy, Scan
Printing Type	Digital Monochrome Printing
Paper Trays	Multiple Tray Configuration
Display	Touchscreen Control Panel
Application	Office & Commercial Use
Design	Heavy Duty Floor Standing Unit
