## About Us

DSL Cold Chain Private Limited is a reliable Manufacturer, Supplier, and Service Provider of integrated cold chain solutions meant to ensure the integrity of temperature sensitive products. We offer Refrigerated Van, Portable Cabin, Refrigerated Truck, Refrigerated Container, Close Body Container Truck Service, etc., at market-leading costs. We are extremely innovative and provide reliability services to the businesses that need to transport perishable products and ensure a high standard of temperature control during transportation between the origin and the destination.

Having years of experience in the industry, DSL Cold Chain Private Limited provides cutting-edge refrigeration solutions that support the current trends of the modern logistics. Our designs and production of high-performance reefer containers incorporate world-known cooling technologies of such famous brands like Thermo King and Carrier. These systems provide constant temperature regulation, energy saving, and reliable performance even in harsh conditions of transportation. We have solutions that are predominantly applied in the pharmaceutical, agriculture, dairy, seafood and frozen food industries.
