About Us

Jandu Printing & Packaging Machines is a reputed manufacturer and supplier of advanced machinery designed to meet the evolving needs of the printing and packaging industry. We specialize in the production of Paper Slitting and Rewinding Machines, Paper Core Cutter Machines, Semi Automatic Paper Lamination Machines, Center Drum Slitter Rewinder Machines, and other related equipment engineered for precision, efficiency, and long-term performance. Our machines are manufactured using high-grade raw materials, modern technology, and strict quality control procedures to ensure reliability, durability, and smooth operation. Backed by a team of skilled engineers and technicians, we focus on innovation and continuous improvement to deliver solutions that enhance productivity and reduce operational downtime. At Jandu Printing & Packaging Machines, we understand the diverse requirements of our clients and therefore offer customized machinery solutions to suit specific applications. We are committed to ethical business practices, competitive pricing, and timely delivery, which have helped us build strong and lasting relationships with customers. With a customer-centric approach and dependable after-sales support, we strive to provide value-driven solutions and establish ourselves as a trusted name in the printing and packaging machinery industry.

Our manufacturing unit is the core of our company where engineering expertise meets innovation and precision. Equipped with modern fabrication tools, advanced machining equipment, and testing facilities, the unit is designed to ensure accuracy and consistency at every production stage. Each machine is crafted through a streamlined process that emphasizes performance, safety, and operational efficiency. A skilled workforce closely monitors every phase, from component development to final assembly, ensuring flawless execution. Continuous upgrades in technology and processes allow us to meet changing industry demands while maintaining superior build quality. This strong manufacturing setup enables us to deliver dependable, high-performing machinery that stands the test of time.

Key Facts

No of Staff	16
Year of Establishment	1987
OEM Service Provided	No

Our Products

Slitting And Rewinding Machine

Center Drum Slitting Machine

11 KW Stainless Steel Slitting Rewinding

M Tech Simplex Slitter Rewinder Machine

Jumbo Roll Paper Slitter Rewinder

Mini Slitting Rewinding Machine

Semi Automatic Paper Slitting Machine

Hydraulic Shaftless Reel Stands Slitter

Cling Film Rewinding Machine

Jumbo Rolls Slitting Rewinding Machine

Paper Slitter Rewinder Machine

Automatic Paper Slitter Rewinder Machine

Paper Core Cutter Machine

Semi Automatic Paper Board Reel To Sheet

Stainless Steel Reel Sheet Cutting Machine

Center Drum Slitter Rewinder Machine
