SILVER PLUS E SPECTROMETER

GOLDPLUS XE SPECTROMETER

GOLDPLUS XLE SPECTROMETER

About Us

Precision in metal analysis is non-negotiable - and that is precisely where VAS Spectrometers makes its mark. We design Optical Emission Spectrometers that deliver accurate, repeatable results while remaining practical, reliable, and cost-effective for everyday laboratory and quality control use. Our focus is simple: advanced spectroscopy solutions that work consistently, are easy to operate, and deliver long-term value.

VAS Spectrometers was established to change how Optical Emission Spectroscopy is accessed and adopted. For years, manufacturers relied on imported European OES systems, which were costly, had long lead times, and were not well adapted to Indian and emerging-market conditions.

Key Facts

No of Staff	501
Year of Establishment	2015
OEM Service Provided	No

Our Products

**Silver Plus E
Spectrometer**

**GoldPlus Xe
Spectrometer**

**GoldPlus XLe
Spectrometer**

**Sample Preparation
Machine**

ADDRESS

**A-95, 3rd Floor, DDA Shed Okhla
Phase - 2, New Delhi, Delhi, India
