About Us

Driven by technology and guided by quality, we, AJANTA Belts Pvt. Ltd., have developed competency in designing as well as fabricating technologically advanced industrial belts. Incorporated in the year 1978, we have earned tremendous goodwill in worldwide business domain due to our ethical practices and customer oriented approach. Over the past 3 decades, we have established ourselves as the leading manufacturer, exporter and supplier of multi-purpose industrial belts. Setting new benchmarks of excellence in the industry, we are regarded as one of the most reliable sources of V Belts, Narrow V Belts, Cogged V Belts, Hexagonal V Belts, Poly V Belts, Harvester Combine Belts and more. Our product range is a symbol of quality and reliability.

Being a mechanically determined business, we endeavor to consolidate most recent advancements in our procedures on consistent interims. We are empowered with state-of-the-art infrastructure which facilitates bulk production of quality assured V Belts, Hexagonal Belts, etc. in minimum lead time. All the belts are manufactured in conformation to highest industrial norms & standards. The superior quality of our range has enabled us to develop a wide customer base across the world.
