## About Us

Vector Fittings India, established in 2025 and based in Bhiwandi, Maharashtra, is a trusted manufacturer, exporter, supplier, and trader of premium piping components. We specialize in high performance grooved and butt weld fittings designed for critical applications across fire protection systems, gas distribution, HVAC networks, and water supply infrastructure. Our product range includes Butt Weld Pipe Fittings, Carbon Steel Elbow, Concentric Reducer, Flange Adaptor, Grooved Coupling, Steel Flange and so on, manufactured using high grade materials such as ductile iron to ensure durability, corrosion resistance, and long service life. We are committed to delivering products that meet international quality benchmarks, with select fittings complying with globally recognized standards like UL certification for fire protection service.

We emphasize efficiency and sustainability. Our reusable, no weld installation fittings reduce energy usage, minimize waste, and support environmentally responsible construction practices, including green and LEED focused projects. With a customer centric approach, we offer responsive after sales support, technical guidance, and a strong supply chain network with pan India delivery capabilities. Driven by quality, innovation, and reliability, we continue to build lasting partnerships with engineers, contractors, and project developers across diverse industries.
