About Us

Measuring instruments are highly needed across various industries, and we, Atago India Instruments Pvt. Ltd., take immense pride in stating that it is our range of instruments that a wide customer base prefers. Our Cutting Oil Coolant Refractometers, Visco Digital Rotational Viscometers, Digital Polarimeters, Frying Oil Monitors, and more products stand out in the market not just because of their unrivaled quality but also because of the precise results that they give. Also, they are the favorite choice of customers nationwide. Our customers refer to us as the most trusted trader, supplier, and importer of the aforementioned products. To keep the admiration coming from the customers, we make sure the products we trade in from our trusted vendors or import from renowned vendors all over the world are longer serving, accurately-designed, fluent in performance, and require no or zero maintenance.

Furthermore, we guarantee complete customer satisfaction. We make sure that no customer of ours leaves the premises disappointed and with a feeling of regret for choosing us over the others present in the market.

Located in Mumbai (Maharashtra, India), we, Atago India Instruments Pvt Ltd., are listed among the top trading and import companies in the market. We deal with a wide range of measuring instruments that cater to various industries. Our product portfolio comprises Frying Oil Monitors, Visco Digital Rotational Viscometers, Cutting Oil Coolant Refractometers, and more. We procure the aforementioned products from renowned vendors in the market. The vendors we deal with are well-known for serving high-quality products and carrying out their business operations in accordance with ethical values. Dealing with such vendors helps us satisfy the needs of our customers. Also, as we conduct multiple quality checks both before and after the procurement process, our products stand out in the market, proving to be the best option for our customers.
