About Us

NEXIS CONTROLS is a dynamic and forward-thinking company specializing in the manufacturing and supply of advanced industrial automation products and control solutions. With a strong commitment to innovation, quality and technological excellence, we have established ourselves as a trusted name in the industry. Our wide product range includes Mitsubishi VFDs, Siemens PLCs, Mitsubishi Servo Drives, Mitsubishi Drives and various automation components designed to enhance industrial productivity, precision and operational efficiency. We cater to diverse industries by delivering reliable solutions that meet modern automation requirements and evolving industrial standards.

At NEXIS CONTROLS, we believe that technology is the driving force behind industrial growth and efficiency. Backed by a team of skilled professionals and industry experts, we continuously strive to provide cutting-edge products that ensure seamless performance, energy efficiency and long-term reliability. Our focus on quality assurance and customer satisfaction enables us to build lasting relationships with clients across multiple sectors. We are dedicated to offering customized automation solutions tailored to the specific needs of our customers. Through transparent business practices, prompt service and technical expertise, we help industries optimize operations and achieve greater productivity. With a passion for excellence and a vision for innovation, we continue to move forward as a dependable partner for advanced automation and industrial control technologies. Our commitment to precision, performance and customer-centric solutions makes us a preferred choice for businesses seeking reliable and future-ready industrial automation products.
