## About Us

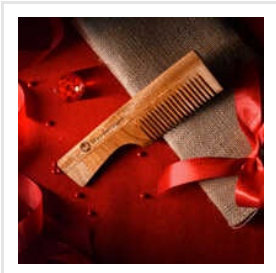

Woodensqui is a blend of tradition, craftsmanship, and thoughtful grooming that offers wooden hair care products that reflect purity and performance. As a manufacturer and supplier, we aim to deliver high-quality combs crafted of natural wood that are of excellent quality and contribute to healthy hair practices, but at the same time care about nature. Each of the pieces is carefully designed so that they can be durable, comfortable, and used permanently, so that the daily grooming is a well-polished and relaxing experience. The wood employed in every single comb is carefully chosen, and it has been known to be scalp friendly, and inherently anti-bacterial. These combs are created to curb the problem of frizz and staticness and to ensure a smoother, healthier looking hair is achieved without causing any breakages or irritation to the hair.

The polished finish and easy grip make the effortless styling a feature of the daily care. The collection is suitable for all types of hair, such as thick and curly hair, as it is a sustainable and eco-friendly alternative to using plastic grooming tools. Everything we do is based on craftsmanship. Caution in details, rounded edges, and polished finishing are the reasons why all combs do not just work but also feel high quality in their hands. The range is reliable and hygienic and is used to groom, and also in professional salons. The sensitive scalps are taken good care of as they deserve with the help of natural materials that are in line with holistic acts of taking care of hair.
