

Material Handling Trolleys

Product Overview

Jump on the demand for our Popular Material Handling Trolleys, crafted with exquisite mild steel frames and a yellow matte finish. Built for warehouses and industrial applications, these trolleys feature heavy-duty construction, corrosion resistance, solid rubber wheels, a flat-bed platform with up to 800 kg capacity, and a U-shaped push handle for smooth manual operation.

Industrial Strength

Designed for warehouses, logistics, manufacturing plants, and industrial movement. The flat-bed platform enables easy loading and unloading while the ergonomic handle ensures operator comfort.

Export & Domestic Delivery

Available for domestic and export supply with competitive FOB pricing, timely delivery, and bulk order support.

FAQs

1. Corrosion-proof coating improves durability and reduces maintenance.
2. Mild steel frame with ergonomic U-shaped handle.
3. Ideal for transporting loads up to 800 kg in warehouses.
4. Suitable for factories, distribution centres, and retail storage.
5. Orders can be placed for domestic or export delivery through the manufacturer.
6. Manual operation offers precise control with stable solid rubber wheels under heavy loads.
