About Us

Pritul Machines is a name renowned across the markets for Bakery Machines & Equipment since 1986. Standing second to US in the manufacturing of bakery Items, India has acquired an impressive Rs. 3000 crores annual turnover from the respective domain. Understanding the prevailing demands and requirements of our products in a globalized nation, we have emerged as a prominent manufacturer, exporter and supplier. Surpassing the expectations of clients from the bakery sector, we deliver an exceptional range comprising Rotary Rack Oven (Bakery Oven), Spiral Mixer, Planetary Mixer, Bread Making Machines, Rusk Making Machines, Bakery Proofer, Dough Shifter, etc. These have been the accurate equipment for production of hygienic, tasty and fresh Breads, Buns, Cakes, Burgers, Cookies, Rusk and many more bakery items.

Operating under the able assistance of Mr. R. K. Jain since inception, the company has achieved unmatched success and goodwill in the marketplace. We are backed by a sprawling infrastructure spread across 1700 square meters. This is well- equipped with high-tech tools and machinery like TRUMPH metal and sheet cutting machines, PAVE wire bending machines, HYPER THERM plasma cutting machines, bending and press brake from Hindustan hydraulics and more which have been sourced from the most acknowledged brands of Germany, UK, US and other nations across the globe. Precision engineered as per the ultra-modern technologies of CAD Software, the company has managed to deliver solutions which are trusted for their sturdy construction, appealing designs, smooth and flawless functionality and longer service life.

Quality

We never compromise in delivering superior most quality and this is achieved through strict evaluation tests conducted by our inspectors. They scan the sourced raw materials like high temperature and heat resisting steels , etc. prior to their production into finished goods, and continue their evaluation on end productions prior to their deliveries. Parameters underlined for evaluating our end products include performance, design, precision engineering and service life.
