

### **Product Description: Stainless Steel Four Burner Range**

This is a commercial stainless steel four-burner gas range designed for heavy-duty cooking applications in professional kitchens. The appliance features a robust stainless steel structure combined with durable cast iron burner supports for enhanced stability and heat resistance.

**Key Features:** Four high-performance gas burners for multitasking and fast cooking. Heavy-duty cast iron pan supports for durability and stability. Premium stainless steel body for corrosion resistance and easy maintenance. Independent control knobs for precise flame adjustment. Back splash panel to protect walls from spills and splashes. Open bottom storage shelf for cookware and kitchen essentials. Suitable for continuous use in commercial kitchen environments. **Applications:** Ideal for restaurants, hotels, catering services, cafeterias, food courts, and industrial kitchens requiring efficient multi-burner cooking equipment.
