

Product Description: Stainless Steel Two Burner Range

This is a commercial-grade stainless steel two-burner cooking range designed for professional kitchens, restaurants, cafes, and catering businesses. The unit features a durable stainless steel body that offers corrosion resistance, easy cleaning, and long-lasting performance.

Key Features: Two heavy-duty gas burners for efficient cooking. Strong cast iron pan supports for stability. Stainless steel construction for hygiene and durability. Separate control knobs for individual flame adjustment. Lower storage shelf for utensils or cookware. Suitable for commercial and industrial kitchen environments. Applications: Ideal for restaurants, food stalls, hotels, canteens, and catering services requiring reliable high-performance cooking equipment.
