## ABOUT US

# DEDICATION AND COMMITMENT KEEPS US DRIVING

Goel Enterprises alias SK Products India has 33 years of experience in storage and packaging with a profound knowledge about market requirements.

S.K. Products India was founded in the year 1988 by Lt. Sh. Suresh Goel. At the time there were few who dared to put their foot in a new field while Sh. Suresh Goel did a daring work to start his manufacturing business with blowing technology back in 1980s. It was his sheer hard work and dedication that soon he began to manufacture new designs never seen in the existing blowing industry which not only eased out the customers' requirements but opened new avenues for other manufacturers.

Then came a new era with the start of the 21st century bringing new technologies and promising market. Despite being from a humble educational background, Sh. Suresh Goel learnt the new technology and the changing market requirements while keeping the quality of products at its best. He did not hesitate to experiment with his manufacturing process and innovate. Since then, there has been no looking back. S. K. Products India has been providing one step solution to its customers for storage and packaging requirements. We have been manufacturing Jerry Canes with high quality plastic and finish among other products like open top drums, etc..

After the sudden demise of Sh. Suresh Goel, his son Sh. Vibhor Goel with the blessings of his mother Smt. Madhu Goel, has been carrying forward the legacy while adding more options in color and storage capacity. Today, we manufacture a wide variety of plastic drums and are selling not just in Delhi but all over the country.
