 **legrand**®
LIVE THE ADVANTAGE

LYNCUS,
THE NEW RANGE
FROM
LEGRAND

Our homes are changing at a speed like never before. What's cutting edge today is outdated tomorrow. In this landscape, Legrand is developing ever new technologies and bringing them to consumers.

In labs across the world, Legrand is always busy researching and developing new products in electrical and digital building infrastructure. More than 5% of our budgets are dedicated to this goal. And because our customers need products that go beyond technology, that bring design value as well, our focus is on both. We call it Designeering.

Our new Lyncus range is a culmination of all these values. The sleek minimalist look is perfectly in sync with the technology that sets this range apart. Easy to install, easy to use and easy on the eyes. In other words, welcome to a range tailor made for your modern home.

CLEAN AND MINIMAL WITH JUST A TOUCH OF QUIRK

Today's homes need a range that mirrors their look. A modern sleek look with clean lines. A look that is chic and futuristic. Our new Lyncus range brings this aesthetic to your home, but with a subtle touch that adds character to every room.
