About Us

Established in the year 2021, Inkhire Electrographics is a trusted Proprietorship firm engaged in manufacturing, wholesaling, supplying, and trading a premium range of LED Modules, LED Bulb Raw Materials, LED Light Raw Materials, and other related products. Based on a strong commitment to quality, innovation, and customer satisfaction, we strive to deliver products that meet the highest industry standards while ensuring competitive pricing and timely delivery. Our product range is sourced and manufactured using quality-approved materials and advanced techniques, making it suitable for diverse lighting and electrical applications.

At Inkhire Electrographics, customer satisfaction remains at the core of our business philosophy. We continuously work to understand the evolving requirements of our clients and provide reliable, cost-effective solutions that exceed their expectations. Our ethical business practices, transparent dealings, and customer-centric approach have enabled us to build long-lasting relationships with customers across various industries.
