

PSI-012 COD Digestion

C.O.D. Digestion Apparatus is used to determine the chemical oxygen demand. We are one of the leading manufacturers and suppliers of C.O.D. Digestion Apparatus. Our specially manufactured C.O.D. Digestion Apparatus are in great demand owing to its excellent quality and goof functioning.

Features:

- Provision for 15 samples
- Fitted with a digital Micro Processor PID Controller having a timer for 2 hours and also a buzzer
- Consists of a reaction vessel of 38-40mm
- Supplied with 15 nos. glass reaction vessels
- Fitted with 15 nos. air condensers
- Supplied complete with a stand which can accomodate 15 vessels
- Supplied with S.S Cooling Bath for glass reaction vessels
- Can be operated on 230 volts, 50 Hz, and Single phase
- Working Temp. 150'C & Maximum Temp. 250'C

Size	Size
6 Hole	18 Hole
12 Hole	21 Hole
15 Hole	24 Hole

- We are Mfg. of Complete s.s. (GMP).
- We are Provided IQ,OQ,PQ, Documents and user manuals.
- We are Provided Micro Processor PID Controller with data Storage for pen drive or Printer interface
