HIGH TEMPERATURE MUFFLE FURNACE

High Temperature Box Furnace according to Customer Requirements. This model can go max of 1400°C using Silicon Carbide Heating Elements. We fabricate Stand Alone Model & Table Top Model.

Inner Dimension

9" x 4" x 4"

12" x 6" x 6"

12" x 12" x 12"

Specifications

- Working Temperature up to 1350°C
- Tailor made box size as per the customer requirement
- Silicon carbide heating elements
- 1°C accuracy at dwell temp
- Rapid heating rate(1 to 20°C/min) programmable
- Suitable for nanotechnology applications
- Murugappa High Temp. Insulation
- Indigenous thyrist Or controller
- Digital Programmable Digital temperature indicator cum controller
