

SIEMENS 3RW3046-1AB04 Soft Starter

The SIEMENS 3RW3046-1AB04 Soft Starter provides superior control for industrial motor applications. Rated at 46 A and 22 kW, it features built-in thermal overload protection, soft start and soft stop functions, and compatibility with 200-480 V AC systems. It complies with IEC/EN 60947-4-2, CE, and UL standards, making it ideal for modern industrial environments.

Applications

- Manufacturing plants
- Water treatment facilities
- Conveyor systems
- HVAC operations
- Automated industrial processes

Key Features

- Automatic operation
- Built-in thermal overload protection
- Smooth soft start and soft stop
- Panel and DIN rail mounting
- High reliability and energy efficiency

Certifications & Delivery

Certified to CE and UL standards with sample availability and prompt dispatch from Germany.
