

We are the **largest manufacturer of SLS colour needles** in different types of **colours**

We are offering these product costumes as per customer needs.

SLS Color Needle does what it does, this product act as a surfactant, moisturizing surfaces, emulsifying or diluting oils, suspending dirt and so on. This is excellent in the cleaning process; this material gives the foam the benefits of cleaning products, SLS is safe to use on cleaning products.

We are providing **formulation consultancy services** for **detergent** and **home care products**

We provide expert formulation support to create high-performing, market-ready products.

Customized solutions that improve product efficiency, stability, fragrance, shelf life, and cost-effectiveness. Ideal for launching or scaling innovative detergent and home care lines with better performance, enhanced consumer appeal, reliable results, longer shelf stability, and alignment with evolving market demands.

Our Products Range

High-quality raw materials designed for detergent and cleaning product formulations, ensuring consistency and effective performance.

Sodium Meta Silicate 9H₂O/5H₂O

SLS Colour Needles

SLS Needles (White 90%)

Sodium Sulphate Colour Granules

Salt Colour Speckles

Polymer Kc-90

Liquid Thickener

PC - 4500 Liquid Thickener

Applications of Liquid Thickener

Improve viscosity

Gives the detergent or dishwash liquid a thicker, more appealing consistency.

Enhance cling on surfaces

Allows the liquid to stick better to clothes or utensils, increasing cleaning contact time.

Control pouring

Prevents the product from running too fast, making it easier to use and reducing waste.

Stabilize ingredients

Keeps surfactants, fragrances, and colorants evenly mixed and suspended.

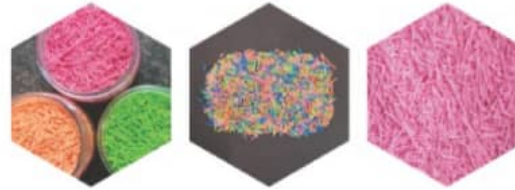

Boost perceived quality

A thicker product is often associated with higher effectiveness and premium quality by consumers.

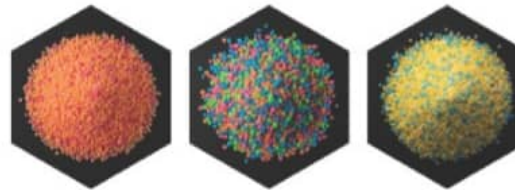

SLS Colour Needles

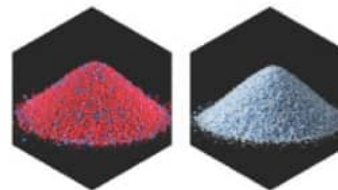

SLS Needles White (90%)

Salt Colour Speckles

Sodium Sulphate Colour Granules

We are the manufacturer of specialty chemicals that are widely used in detergent and home care product manufacturing

High-quality raw materials

Providing formulation support, custom solutions, and consistent quality to grow your detergent business
