

Dehydrated Tigernuts

Product Overview

Introducing our latest offering: Dehydrated Tigernuts, carefully graded and vacuum-sealed for freshness. These nutrient-rich tubers from Nigeria are naturally rich in fiber, iron, potassium, and magnesium. They are non-GMO, gluten-free, and allergen-free, making them ideal for healthy snacking and food applications.

Uses & Benefits

Enjoy as a snack, prepare horchata, add to cereals, or use in baking applications. Their naturally sweet, nutty flavor and high fiber content make them a versatile ingredient for food manufacturers and consumers alike.

Supply & Delivery

Available in vacuum-sealed bags, polybags, and cartons. Samples can be provided according to company policy. Delivery timelines are shared with the official quotation based on order size and destination.

Storage

Store in a cool, dry place away from direct sunlight. Shelf life can extend up to 24 months under recommended conditions.
