

Dried Hibiscus Flower

Product Overview

Premium Dried Hibiscus Flower sourced from Nigeria with a deep red color and minimum 99.5% purity. Seedless, petal-only, allergen-free, and naturally aromatic. Ideal for tea, beverages, culinary applications, cosmetics, and wellness products.

Applications

Used for hibiscus tea, syrups, jams, desserts, beverages, herbal infusions, skincare products, and cosmetic formulations. Delivers a refreshing sour taste and vibrant natural color.

Packaging & Supply

Available in bulk 25 kg bags and customized packaging options. Suitable for exporters, wholesalers, food processors, and manufacturers.

Storage Instructions

Store in a cool, dry place away from direct sunlight and moisture. Keep in airtight packaging to maintain freshness, aroma, and quality.

Export Markets

Supplied to customers across North America, Europe, and Asia with quality certifications and reliable logistics support.
