Gluing

Salient Feature

- Stabilized production even at max feeding speed of 25mtr/min due to sturdy machine structure.
- Smart touch PLC Control Panel for convenient use.
- Automatic up-down movement of pressure beam for thickness setting.
- In-built AIR TANK to avoid dropping of air pressure during process.

Technical Specifications

SPECIFICATION	VE-365
Working thickness	10 - 60
Min. working width	60
Min. working length	150
Band strip thickness	0.4 - 3
Feeding speed	15 - 20 - 25
Pre-milling motor	N/A
Fine trimming motor	2 x 1
Rough trimming motor	N/A
Corner radius motor	N/A
Total motor power	8.5
Working air pressure	6 to 8
Machine dimension (LxBxH)	4000 x 900 x 1600
Aprox net weight	1350
