# About Us

Engineering components are the lifeline of several industries all across the world. Advanced technology requires equally advanced technological components that aid in a quick and flawless manufacturing of products. Established in year 1985, Sudarshan Gears is a renowned ISO 9001:2000 certified concern, well known in its discipline for offering premium quality industrial components at cost effective prices.

We are a **manufacturer, exporter and supplier** of hollow **shaft zero backlash worm gear boxes, inline helical gear boxes, adaptor helical gear boxes, hollow shaft aluminium worm gear boxes, 3 stage inline helical gear motors, flange mounting inline helical gear motors, etc.** Our products find wide application in paper industries, textile industries, etc.

## Quality Assurance

A total Quality Management System (QMS) is kept well in place to facilitate perfection in each product. We have developed the products in exact accordance with what our customers desire. We procure high quality raw materials from reputed suppliers and double check them before using them in the manufacturing process. From start to finish, every product is carefully analyzed and developed by our experts, leaving no scope for quality degradation. Our ISO 9001:2000 certification is an ample proof our committed approach to quality and perfection.

## Infrastructure

Our infrastructural setup is our greatest asset and is built in tandem with the latest technological standards. We have a state-of-the-art manufacturing unit which is outfitted with cutting edge machines like hobbing machines, horizontal boring machines, milling machines, grinding machines, key way machines, and inspection & testing equipments. These machines enable us to manufacture and test the products on quality parameters with ease and efficiency. They are upgraded as per latest technology to make sure that they are competent enough to perform satisfactorily for a long time.
