## About Us

Tech Prime Peb Infra is a well-known provider of industrial and commercial infrastructure development, serving as a manufacturing, wholesale distribution, and service company. We work on all aspects of creating RCC and civil construction infrastructures such as industrial sheds, Pre-engineered building structures, mezzanine floors, roofing and wall cladding systems, etc., along with the necessary supports, erection, and installation services. At Tech Prime Peb Infra, we are committed to providing strong, cost-effective, and cutting-edge structures that meet changing needs of modern-day businesses and industries.

Tech Prime Peb Infra founded in 2009, in Pune, Maharashtra, India, is known as Supplier, Manufacturer, Service Provider offering Industrial Warehouse, Pre Engineered Building Structure, Mezzanine Floor, Roofing And Wall Cladding System, Erection And Installation Service, etc. As industries expand and develop, Tech Prime Peb Infra will continue to focus on innovation, dependability, and continuous improvement. We will endeavour to incorporate new construction methods and evolving technology to improve the efficiency and sustainability of our projects. Our commitment to quality, honesty, and creating value for our customers will help us build our reputation as a reliable resource for commercial and industrial infrastructure solutions, and we look forward to playing a significant role in the overall expansion of the construction industry.
