

Parametric[®] Research & Control

(An ISO 9001:2008 (QMS) Certified Company)

Digital Load Indicator

Features & specifications:

- | | |
|-----------------|---|
| ➤ Application | Suitable for multiple physical parameters. |
| ➤ Display | 5 / 6 Digit 7 Segment display. |
| ➤ Input | Any Strain gauge based sensor / transducer. |
| ➤ Calibration | Multi point Calibration for Non Linear Applications (Optional). |
| ➤ Output | 2 Set point Relay output / 1 Relay output |
| ➤ Function mode | Peak hold function / Unit conversion (Optional). |
| ➤ Keypad | 4 keys to enter parameters. |

We also manufacture:

- ✓ Design & Development of Customized requirements
- ✓ Microcontroller Based Systems for Load, Pressure, Torque, Displacement, Temperature, Multifunction Digital Indicators, Batching Systems, Data Acquisition Systems, Air Leakage Testing System, Light Testing System, Computerization of Materials Testing Machines, Timers, Counters, Production Counter, Impact Tester, Hardness Tester.
