## About Us

Cleaning and dusting equipment is extensively used in several industries for collecting dirt, debris, and chipped particles during the welding and machining of products. We, Hafi Elektra Pvt. Ltd., serve as a manufacturer, supplier, and exporter and offer good-quality industrial vacuum cleaners and dust extractors. Our product range includes Heavy Duty Industrial Vacuum Cleaners, Flux Recovery Units, Portable Dust Extractors, Fume Extractors, etc. These products are made keeping the requirements of industrial plants in mind and are integrated with the latest technological advancements for better cleaning.

The offered products are highly appreciated by the customers for their strong build, excellent performance, lower energy consumption, and longer functional life. We use quality-assured components in making our equipment so that it does not break down easily. All the products are made at our well-equipped production facility under the supervision of our professionals, who are experts in making these products. We have been making these products for the past several decades and have gained the requisite expertise to manufacture a flawless range. Furthermore, we have incorporated Italian and German technology by collaborating with Nuova Svamel (FLOOR) s.r.l. Italy for manufacturing of Automatic Wet & Dry Scrubbers, and Darenth Equipments Ltd., U.K. for manufacturing of Oil Recycling Machines.
