

Cobalt Chloride Powder

Acetanilide Powder, Aluminium Nitrate Powder, Aluminium Nitrate Powders, Aluminium Phosphate Powder, Aluminum Acetate Powder, Ammonium Dichromate Powder, Ammonium Iodide Powder, Ammonium Nitrate Powder, Ammonium Oxalate Powder, Ammonium Penta Borate Powder, Ammonium Sulphate Powder, Ammonium Sulphide SOL, Barium Acetate Powder, Barium Borate, Barium Chromate Powder, etc.

**ZINC OXALATE POWDER****SODIUM ACETATE****SODIUM PHOSPHATE POWDER**

About Us

Apurva Chemicals is a name associated with trust, loyalty and perfection in the Indian Chemicals Industry for introducing quality-rich chemicals. As a manufacturer, we are responsibly producing Sodium Phosphate Powder, Sodium Acetate EP Powder, Ammonium Dichromate Powder, Zinc Carbonate Powder, Manganese Acetate Powder, Barium Acetate Powder, and many more chemicals. We have well-developed and hygiene based production facility at Badlapur, Maharashtra (India). Our facility is advanced and managed by professionals, who possess rich and deep industrial knowledge. Finely composed and supremely effective, our chemicals are produced following a reliable tried and tested process. Industrial guidelines are thoroughly followed by our professionals to make certain every batch of premium quality chemicals is provided to customers.

Chemicals are crucial for varied industrial processes. They are key elements in the production of numerous products. We, as a chemicals production company, take pride in dealing in a huge array of chemicals, which find use in textile, varnishes, paints, fertilizers, feed additives, food packaging, printing, bath salts, water treatment, paper, rubber, plastic, pigments and more. Small to large scale companies associate with our company to avail Sodium Phosphate Powder, Barium Acetate Powder, Sodium Acetate EP Powder, Zinc Carbonate Powder and many more industrial chemicals at reasonable prices.

No of Staff	20
Year of Establishment	1998
OEM Service Provided	No
Memberships	ISO 9001:2015

Our Products

**Red Potassium
Dichromate**

**Mono Potassium
Phosphate Powder**

**Sodium Acetate EP
Powder**

**Potassium Formate
Powder**

**Potassium Chromate
Powder**

Potassium Sulfate Pure

**Potassium Nitrate
Powder**

**Potassium Sulfite
Powder**

**Sodium Bisulphate
Powder**

Sodium Nitrate Powder

**Sodium Carbonate
Powder**

**Potassium Hydrogen
Phthalate**

**Sodium Acetate
Trihydrate Powder**

**Sodium Formate
Powder**

Tri Sodium Phosphate

Barium Borate
