## About Us

Quality production of Chemical Powders, Ferrous Sulphate Heptahydrate Powders and Industrial Chemicals is done at our well-equipped facility with zero mistakes. We take extreme pride in having assistance of a responsible team that executes all production related operations employing the finest machines, instruments and tools. Our complete line of products is noted for accuracy in composition. Meeting bulk demands of customers is no less than a brilliant job in a business. Understanding this well, our company indulges in a high speed based manufacturing process. We, as a manufacturer, are a big promoter of quality which is why we never compromise it at the time of producing chemical powders and others.

High market credibility is the result of supreme quality production and in-house complete product testing. We make the best use of installed machines and instruments in the testing unit for evaluating quality standards of range that includes Ferrous Sulphate Monohydrate, Sodium Acetate Trihydrate Anhydrous, Zinc Sulphate Heptahydrate etc. Our company closely tests product line on the basis of effectiveness, purity and safety prior the final date of shipment. We are regarded as the most trusted business name in the market owing to our quality based product line and efficient after sales services.
