Mild Steel (MS) Centrifugal Blower

Official catalog submission dataset mapping custom configurations, structural materials, and technical parameters optimized for TradeIndia platform matching.

1. Primary Platform Identification & Fixed Parameters

Parameter Field Name	Configured Attribute Value	TradeIndia Field ID
Product Type	Centrifugal Blower	*84799897*
Material Composition	Mild Steel (MS) / Steel	*84799907*
Pressure Rating	High Pressure Blower Configuration	*84799905*
Power Source	Electric Blower System	*84799909*
Operational Frequency	50 Hertz (HZ)	*103199988*
Housing Color	Grey Industrial Coating	*103199987*
Standard Warranty	1 Year Core Machine Warranty	*84799898*

2. Explicitly Mapped Industrial Applications

Based on your platform catalog checklist, this specific high-pressure MS Centrifugal unit is optimized for the following targeted operation sectors:

• Industrial Ventilation	• Air Knives Systems	• Industrial Packing Processes
• Material Filling Lines	• Soil Remediation Extractions	• Thermoforming Frameworks
• Food-processing Systems	• Commercial Printing Presses	• Textile Treatment Plants
• Laboratory Gas Analysis	• Clinical & Dental Suction	• General Purpose Ventilation

3. Unassigned Dynamic Attributes (Marked as N/A / Pending)

The following parameters are currently set to **N/A (Not Available)** or await metric unit assignment in your TradeIndia inventory registry. Defining these will maximize your platform lead generation ranking:

Performance Parameters	Dimensions & Requirements
• Capacity Units (e.g., m³/hr, CFM) • Flow Rate Capabilities • Pressure Range Limits • Vacuum Range Performance • Max Operating Pressure Profile	• Total Motor Speed (RPM) • Output Power Rating (HP/kW) • Input Voltage Target (220V/415V) • Physical Dimensions (L*W*H mm) • Net Weight & Asset Life Span
