CERTIFIED COMPANY

**WE OFFER VARIOUS TYPES OF PHARMACEUTICAL PRODUCTS
FOR HEALTH AND SAFETY**

SAFETY SIGNS

Safety signs are a type of sign designed to warn of hazards, indicate mandatory actions or required use of Personal protective equipment, prohibit actions or objects, identify the location of firefighting or safety equipment, or marking of exit routes

MEDICAL DEVICES

Light and easy by design. We provide some of the best light weight Medical device stands for healthcare environments made specifically to enhance both patients

RESPIRATORS

A **respirator** is a **protective device** that covers the nose and mouth or the entire face or head to guard the wearer against hazardous atmospheres. Respirators may be: Tight-fitting - that is, half masks, which cover the mouth and nose and full facepieces that cover the face from the hairline to below the chin

PPE

Personal Protective Equipment

PPE stands for personal protective equipment. PPE means any device or appliance designed to be worn or held by an individual for protection against one or more health and safety hazards.

SANITIZERS

a liquid or device for cleaning objects carefully in order to get rid of harmful bacteria from them: The mats are cleaned with bleach-based **sanitizer**.

Medical Device

INFRARED THERMOMETERS

An infrared thermometer is a thermometer which infers temperature from a portion of the thermal radiation sometimes called black-body radiation emitted by the object being measured. They are sometimes called laser thermometers as a laser is used to help aim the thermometer, or non-contact thermometers or temperature guns, to describe the device's ability to measure temperature from a distance. By knowing the amount of infrared energy emitted by the object and its emissivity, the object's temperature can often be determined within a certain range of its actual temperature. Infrared thermometers are a subset of devices known as "thermal radiation thermometers".

Brand	Multy Brand
Operating Temperature	10.0 Deg C to 40.0 Deg C
Warranty	1 Year
Battery Voltage	3 V
Response Time	0.5 Sec
Material	ABS
Battery Type	AAA
Type	Digital Infrared Thermometer
Accuracy	± 0.1 Deg C
Display Type	HD LED Screen
Package Contants	1Pc Non-contact Infrared Forehead Thermometer, 1 Pc Instruction manual, 1 Pc Certification of Competency
Item Code	TG8818B
Items in Pack	1 Piece
Resolution	0.1 degree C.

Medical Device

FINGERTIP PULSE OXIMETER

A finger pulse oximeter is a small device which measures the amount of oxygen present in people's blood. This is an indirect method of measuring blood oxygen levels, as opposed to a direct method such as testing a blood sample. The fingertip pulse oximeter device is worn on the tip of the finger, and uses light of particular wavelengths to measure oxygen saturation in the blood.

- It is simple, convenient and safe to use without trauma by cold light source;
- Equipped with high quality OLED colour liquid crystal display, which makes larger and clearer font. And there are 4 display directions;
- Acceleration sensor makes measurement faster and more accurate in 8 seconds.
- Low power consumption chip, which guarantees the performance and greatly improves the service time;
- Anti-slip and scratch-resistant shell with fine workmanship is eco-friendly and more durable;
- Small and portable, easy to operate;

Performance SFS50DL1

Display Mode	LED display
Power Supply	1.5V (AAA size)
alkaline batteries * 2	
Power Consumption	less than 25mA
Dimension	61(L) mm * 36(W) mm *
32(H) mm	
Weight	About 60g (with the
batteries)	

Matters needing attention:

- The oximeter can be cleaned with the most commonly used 75% alcohol disinfectant and non-corrosive cleaner.
- Keep the instrument in a stable state to avoid falling and hitting
- Please clean the surface of finger pulse oximeter before using it.
- Replace the battery in time to avoid data errors.
- Disinfect regularly on a weekly basis.

RESPIRATORS

3PLY MELT BLOWN MASK

Description

Designed to offer protection while breathing, these 3 Ply Face Masks helps filter out pollutants, chemicals, dust, and microbes from the air as they may cause spread of infection, germs etc. These masks are unisex and are made from good quality inner and outer Spun bound material with 25 GSM. Its 3 layered design ensures maximum comfort and easy breathability, even when worn for extended hours. The filter layer is made from Melt Blown material with 20 GSM. The three layers make filtration more reliable and promotes cleaner air to breathe while also preventing bacterial contact. The 3 Ply Mask is lightweight, biodegradable also features super soft elastic ear band or ear loops to keep the mask in place and suitable for everyone. The Face Mask is ideal for doctors, surgeons, dentists, dental assistants, nurses, landscapers, contractors, plumbers, exterminators, nail technicians, etc
