

STAINLESS STEEL AND PVD COATING INTERIOR WALL PARTITION DESIGN

Experience an enlightened blend of design and durability with our **Stainless Steel and PVD Coating Interior Wall Partition**. A top-drawer and best-selling solution, this geometric modern partition is crafted from high-tensile stainless steel and enhanced with advanced PVD coating, delivering enduring elegance, excellent corrosion resistance, and long-lasting performance.

The partition is available with customizable **frosted, patterned, or tempered glass**, offering exceptional versatility for stylish homes and demanding commercial spaces. Smooth hand-polished edges and seamless floor-to-ceiling installation create a refined architectural feature suitable for a wide range of interiors, including humid climates.

Versatile Application & Installation Features

Our Stainless Steel and PVD Coating Interior Wall Partition is designed for fixed, floor-to-ceiling installation, making it an excellent choice for homes, hotels, offices, restaurants, and showrooms. The partition combines high fire resistance, excellent rust-proof properties, and a low-maintenance hand-polished finish. Its geometric modern modules enhance interiors while providing both decorative appeal and practical space division. Size, color, glass texture, and design patterns can be customized according to project requirements.

Global Reach, Seamless Dispatch & Certified Excellence

With export reach across Europe, the Middle East, Southeast Asia, and Africa, our partitions are dispatched promptly from India's leading FOB ports. Each product is manufactured to meet international quality expectations and can be supplied with applicable ISO and fire safety certifications. Clients can request detailed quotations based on exact customization requirements and receive timely, secure delivery supported by responsive assistance and post-dispatch guidance.

Frequently Asked Questions (FAQs)

Q: How is the partition installed in various environments?

A: The partition is mounted from floor to ceiling using a fixed installation method, making it suitable for hotels, offices, homes, restaurants, and other interior settings. Professional installers can customize the installation according to the available space and desired layout.

Q: What customization options are available for this product?

A: The partition can be customized in size, color, glass texture—including frosted, patterned, or tempered glass—and overall geometric design pattern to match your décor and project requirements.

Q: When can I expect delivery after placing an order?

A: Lead times depend on the level of customization and order quantity. Most orders are dispatched within the mutually agreed timeline after finalizing the quotation and approving all specifications. A detailed delivery schedule is provided during the order process.

Q: Where can these stainless steel partitions be used?

A: These partitions are ideal for hotels, offices, showrooms, homes, restaurants, and other residential or commercial interiors. They can be used as decorative room dividers or architectural design features.

Q: What key benefits does PVD coating offer to the partition?

A: PVD coating enhances surface durability, provides excellent corrosion resistance, and offers attractive finishes such as Gold, Rose Gold, Bronze, or Black. It supports long-lasting performance, particularly in humid climates and high-traffic areas.

Q: How should the partition be maintained for longevity?

A: Maintenance is simple. Wipe the surface regularly with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, and rough scrubbing materials to preserve the PVD finish and maintain the smooth, polished appearance.
