About Us

Suraj Brothers is a trusted manufacturer and supplier dedicated to providing dependable laboratory equipment, educational teaching aids, and scientific solutions for schools, colleges, hospitals, research centres, and industrial laboratories. With years of experience in the field, we have built a strong reputation for delivering products that combine precision, durability, and ease of use. Our extensive product range includes Bio Safety Cabinet, Fully Automatic Autoclave, Chemistry Charts, Nursing Charts, Biology Models, and many other laboratory and educational essentials. Every product is developed with careful attention to quality, functionality, and user requirements.

Our organisation believes that reliable scientific equipment plays an important role in education, healthcare, and research. Therefore, we continuously improve our manufacturing practices and maintain strict quality standards throughout the production process. Our experienced professionals work closely with customers to understand their specific requirements and provide suitable solutions that support efficient learning, testing, and laboratory operations. We focus on timely delivery, transparent business practices, and responsive customer support to ensure complete satisfaction.
