GANESH METAL INDUSTRIES

A Brief History of the Company

The Company was established in 1970 as a tiny unit with a very meager capital. At the initial stage, we started manufacturing sugar machinery, equipment and parts

The Company established its credibility in the market because of its quality, durability and timely, committed delivery of items manufactured and supplied.

The Company diversified its activities of manufacturing in other items like Mill House, Boiling House and Drier House of the sugar industry. By now our Company had made a name in the sugar industry for manufacturing machinery, equipment and parts not only in India but across the borders of the country.

In addition, we have diversified our activities to include other industries like Cement Plant, Thermal Power Plants, Stone Crushing, Steel Plants & Power Press spares & equipments.

INFRASTRUCTURE

We have a well equipped and spacious infrastructure, with modern equipment and machine tools including special purpose lathe machines, heavy duty drilling machines, floor borers, vertical turret lathes, horizontal borers. We not only manufacture specific products but also manufacture them in specific dimensions as per the client's requirement's.

Quality being our focal area, our products undergo several quality checks at every step of production to assure that our products are in compliance with the international standards.

With a well qualified team of engineers, we have an in-depth understanding of various industries we serve and hence are able to serve our clients in the best possible manner. We have German Furnace to cast the material for superior casting. For testing we have Spectro Machine Oxford German make to test the material.
