

Sudatherm™

Sudatherm™

Durable, high performance CICP pigments

for Coatings

SUDARSHAN

First Choice For New Formulations

Sudatherm™

Complex Inorganic colored pigments

Complex Inorganic Colored Pigments (CICP) also known as Mix Metal Oxides are synthetic crystalline metal oxides containing two or more than two different metals.

Technical properties

- Highly durable pigments
- Excellent heat and chemical fastness
- Excellent light and weather fastness
- Ease of dispersion
- Better hiding power

Application profile

- Decorative paint
- Industrial paint
- Powder coating
- Coil coatings
- Heat resistant paint

Disclaimer : The information included here is based on the most reliable data generated by our laboratories. Since the performance of a pigment also depends on the additives and polymers used, we recommend that customers should test the suitability of the pigment for their end application. However, if we are provided with testing methods and samples, we would be glad to do the same. We will do our best to provide products of consistent quality, within the scope of the general conditions of sale and delivery. Should, in spite of these precautions, any liability be established, the damage, if any will be limited to the value of the goods delivered by us and used by you.
