About Us

P.K. Scientific & Chemicals was incorporated in the year 1987 as a first ever manufacturing unit for Hemodialysis Fluids in INDIA. The Company now has 2 state-of-art-manufacturing units in North India. Since then company has a track record of manufacturing Quality Dialysis Fluids in India at very competitive prices. Our 30 years of experience in pharmaceutical business gave PINE an excellent international and national reputation.

We are a highly reputed exporter, manufacturer, importer, supplier and trader of a wide range of pharmaceutical products. Our comprehensive array comprises Hemodialysis Fluid, Hydrogen Peroxide, Femoral Vein Catheter, Femoral Catheter, Femoral Dialysis Catheters, Hemodialysis Solution, Bicarbonate Solution, etc. Owing to the impeccable quality of our range, we have developed our strong presence in the global market. The femoral vein catheter is inserted into the femoral vein in the thigh. It comprises a tube which is inserted in vein using a needle. It is then fixed in place with medical tape or stitches, on the basis of the reason for the catheterization. We import femoral catheter from reliable companies and offer them with the assurance of quality.
