About Us

Kuku Automotives is a brain child of Mr. Sanjay Yadav, the company works with the aim to make earth greener. We started our journey with humble beginnings to come up with vehicles that can replace Diesel & Petrol based automotive. By consistently working hard in the industry, we have carved a niche in the western India and now has started growing as a PAN India level company. We perform business tasks as a manufacturer of Passenger Three Wheel Battery Operated Vehicle, Container Battery Operated Cart, Classic Battery Operated Rickshaw, Toy Train, Electric Auto Rickshaw, etc. We are also supporting customers of our company by providing after sales services.

Kuku Automotives, which is from the pink city of Rajasthan, India is getting high popularity across the nation. We are engineering and presenting several types of electric vehicles such as Battery Operated Auto Rickshaw, Jumbo Battery Operated Loader, Classic Battery Operated Rickshaw, Battery Operated Golf Cart, Passenger Three Wheel Battery Operated Vehicle, etc.

Key Facts
