Continuous Cold Rolled Screw Flight

M.O.C. : Carbon steel

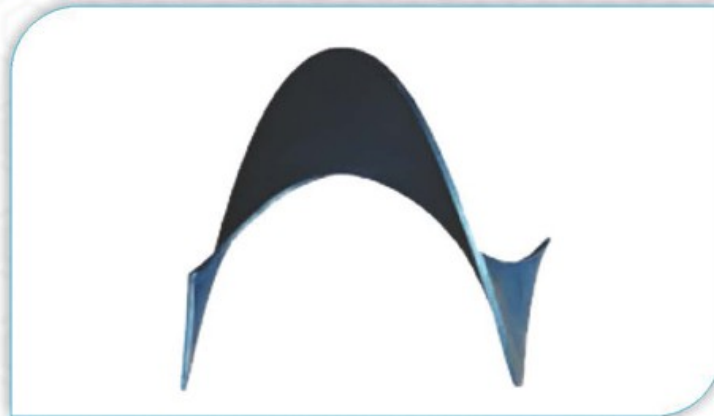

Features : Continuous length (3 Mtrs. long) Smooth finish surface. Uniform shape. High precision. Good tensile strength and wear resistance.

Standard Model	100	125	160	175	200	250	300	320	400	500	630	800
Outer Diameter (MM)	Φ 100	Φ 125	Φ 160	Φ 175	Φ 200	Φ 250	Φ 300	Φ 320	Φ 400	Φ 500	Φ 630	Φ 800
Inner Diameter (MM)	Ø 32	Ø 32	Ø 42	Ø 38	Ø 48	Ø 60-73	Ø 60-73	Ø 73	Ø 114	Ø 141	Ø 168	Ø 219
Pitch (MM)	100	100-125	120-160	175	160-200	200-250	250-300	250-320	320-400	400	450-500	500
Thickness of plate (MM)	3.5	3.5	3.5	3.5	3.5-5	3.5-5	3.5-5	3.5-5	5-6	5-6	5-6	5-6
Standard Length	3 Mtrs.											

MGMT Tools & Hardware Private Limited
Importers : Sectional / Continuous Cold Rolled Screw Flights.

Sectional / Segmented Screw Flight

Material : Carbon Steel, Low Alloy Steel, Wear Resistance Steel, Stainless Steel etc.

Features : A single pitch construction with consistent cross sectional thickness between inner & outer edges. Every screw flight section is formed accurately up to the customers' size. A wide range of size up to 2000 mm in diameter, 40 mm in thickness, 1500 mm in pitch are available. Ribbon, Tapered & variable pitch flights are available on application. Flights can also be hard faced or coated with wear protection materials. High precision and customized size can be made.

Specifications : Any screw flights with size coming in the range of the following table can be made.

PITCH (MM)	MINIMUM INNER DIAMETER (MM)	MAXIMUM OUTER DIAMETER (MM)	THICKNESS (MM)
60-150	30	480	CARBON STEEL ≤ 50 MM MANGANESE STEEL ≤ 50 MM STAINLESS STEEL ≤ 40 MM
150-200	50	520	
200-300	60	670	
300-450	90	950	
450-500	135	1150	
500-650	150	1350	
650-850	200	1400	
850-950	250	1450	
950-1200	300	1600	
1200-1250	400	1800	
1250-1300	450	2000
