

SINCE 2002

Penguin 
WATER TANK

A COMPLETE STORAGE
SOLUTION

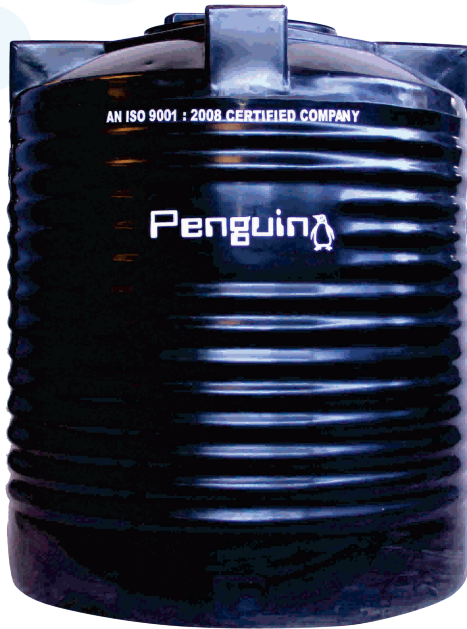

PROFILE

Paradise Polymer was established in surat (Gujarat) Which is in operation as a Leading Manufacturing Unit of rotational moulding water storage Tank, Chemicals tank and underground tank other Customized product during last one decade with hudge brand name i.e "**PENGUIN**"

" The best quality any time, every time" is the guiding mantra of Penguin Tanks. Penguin tanks established it's self as brand known for quality and durability .

Penguin Has always banked on technology and innovation to bring better products to customers. Using latest technology has been one of the core tenets driving our manufacturing unit.

BLACK DOUBLE LAYERS

Model : PNV (BL)

Capacity : 500 LTR - 5000 LTR

Penguin Black tanks are moulded by prime grade LLDPE material with carbon black colour compound. The compound acts as best ULTRA VIOLET (UV) ray absorber. Thus the Material make Penguin Tank tough and durable. Where as the inner side of tank is moulded with sky blue colour. FDA approved grade plastic hence. the water remains hygienic and smell free. and after all full threaded lid gives extra protection from dust. insects & rodents and makes penguin Completely unique and safe storage option.

Why Black is best ?

The Black colour has got excellent (ESCR) environmental stress & Crack Resistance as well as best UV stabilization capacity So the Black colour tanks are naturally tough & durable lasts for a long time.

WHITE TRIPLE LAYERS

Model : PNV (WT)

Capacity : 500 LTR - 5000 LTR

Penguin Has Introduced a very special tanks in the market which is bacteria free and very attractive in look. imported white material is used in the external layer which is crack resistant and the internal layer is build up with food grade approved material which keeps watervery highly hygienic. smell free fresh & cold Penguin white tanks are best for domestic purpose as well as food, dairy & fishery industries

Full Threaded Lid.

Full Threaded lid prevents the entry of harmful object inside the water tank and thus the water remains fresh and hygienic for longer period.

Air Vent System :

Build in air vent system is provided in all size Penguin tank, Which keeps the water smell free. hygienic and cold in hot conditions

INSULATED

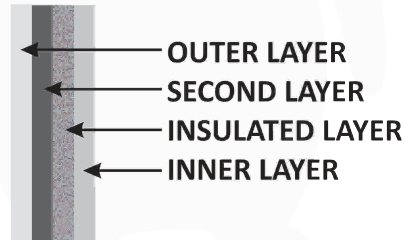

FOUR LAYERS

Model : PNV (WT)

Capacity : 500 LTR - 5000 LTR

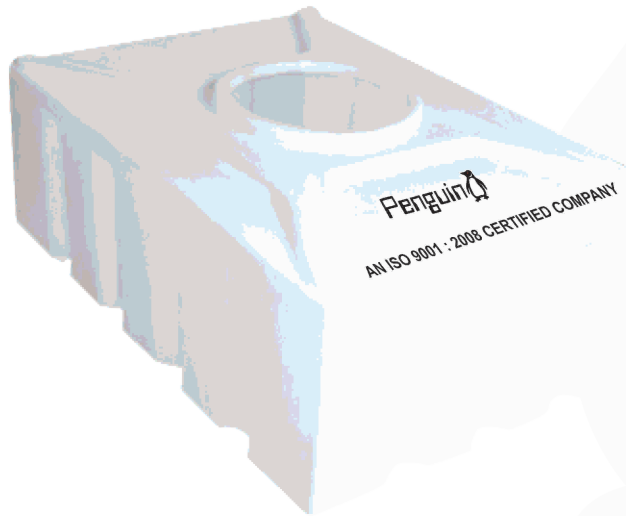

Very recently Penguin has launched features and latest technology in this 4 layer tank the middle layer is build up with imported form (polyethylene) the layer acts as a best temperature insulator and the water retains it's temperature for long time. The inner layer is a very special Bacterial & fungus proof material. Thus the Penguin is the best insuted tank in market

- ☒ BACTERIA FREE
- ☒ EXTRA FRESH
- ☒ COLD

LOFT TANK

Penguin Loft tanks and drums are moulded with prime grade LLDPE material. All the Loft tanks and drums are of uniform thickness and very much durable. Technically these tanks are very much round because additional ribs are provided in all weak corners. Strictly FDA approved grade is used as raw material for these products.
