About Us

Macroline Health care is a pharmaceutical company dedicated to creating trust by supplying quality products, disciplined processes and reliable customer support. Being a manufacturer, supplier, and exporter, the company places a high emphasis on quality at every stage of the manufacturing process from sourcing, production, quality control and verification, documentation, packaging, and storage. Consistent batches are ensured by a purity-driven approach and controlled manufacturing system, while strict quality assurance systems are able to meet the expectations of the pharmaceutical industry and production partners. The product portfolio comprises Furosemide API, Sucralfate API, Etomidate API, Pregabalin API, which are developed and handled with care and precision to ensure quality, consistency and reliability of supply. The company feels that supply of pharmaceuticals is not only about the product. It necessitates responsible processes, traceability, careful handling, accurate documentation, and consistent communication. The principles are applied to the way Macroline Health care operates and interacts with customers.

Macroline Health care is a Medical Pharma Company founded in 2025 in Surat, Gujarat, India. We are manufacturers, suppliers and exporters who specialize in the pharmaceutical APIs, with a keen focus on quality, consistency and reliable supply. We supply Furosemide API, Sucralfate API, Etomidate API and Pregabalin API. We have developed our operations based on a rigorous quality control, controlled production processes, purity focused manufacturing and contamination controlled handling. We have a reliable supply chain, including traceable sourcing, extensive quality documentation, secure packaging and storage conditions, and regulatory thinking. We ensure that our customers can rely on responsive communication, reliable supply support, and technical assistance through an adequate professional team. We maintain stringent batch consistency and product integrity alongside our customers' needs. The company strives to become an even better responsible pharmaceutical partner, focused on quality at every turn and on establishing sustainable business relationships.
