About Us

With rich experience of more than a decade, we are a well known Designer, Manufacturer, Graduate Sales & Service Engineer and Supplier of Physical Testing Equipments and Laboratory Testing Instruments used for testing properties of pulp, paper, board, corrugation, Flexible Packaging, computer stationary, printing, conversion and allied products. We are a known brand in the field of research & development and quality testing procedures both in domestic & international market. We are also Importer and Exporter of various Paper Mill Machinery from Europe, USA, UK, China & others.

Our sound infrastructure unit includes all the required operation to carry out processes from concept to commissioning including intensive Calibration facilities with standard calibrated Instruments/ Equipments as per national and international testing guidelines. We are backed by a skilful and experienced workforce, who help us meeting all the demands of our clients.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	stiffness tester,moisture meter,box compression tester,bursting strength tester
No of Staff	20
Year of Establishment	1993
OEM Service Provided	No
ProductRange	stiffness tester,moisture meter,box compression tester,bursting strength tester

Our Products

Paper Lab Valley Beater

Sheet Drying Cylinder

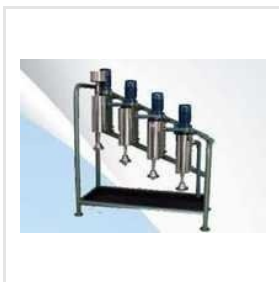

Research Digester

Paper Freeness Tester

CONSISTENCY DETERMINATION TESTER

FIBER CLASSIFIER-Bauer Mc Nett

Floatation Cell/Dienking Cell

Fibre Fractionator (Somerville Screen)

Micro Fibre Projector For Paper Mill

Sheet Drying Cabinet

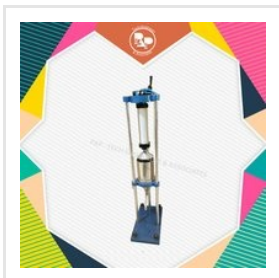

Paper Laboratory Sheet Press (Hydraulic)

Pulp Disintegrator

PULP DISINTEGRATER

Paper Freeness Tester (Pneumatic SR Model)

Fiber Classifier- Bauer Mc NETT

Paper Lab Hydrapulper
