## **UNIQUE PERFORMANCE**

PATENT PENDING  
RIGHTS RESERVED

The New Version of our Areca nut Dehusking Machine is being introduced after a thorough research on every single step has been a great success. The arecanut farmer's satisfaction has inspired us to improve our machine to keep on upgrading it.

## SUCCESS POINT OF THE MACHINES

- Very low power consumption by using just one single phase motor.
- Very less manpower and maintenance free machine.
- A compact design for easy and safe handling.
- Requires very less space.
- Spares and service readily available on request.
- No installation required. Just plug in and run the machine.

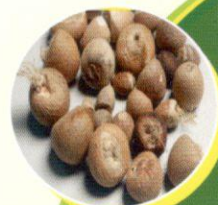

## YIELDING PERFORMANCE

- 0% wastage.
- No Size segregation needed while feeding.
- The damages, scars and powdering of the nuts is well controlled.
- Easily Portable Machine
- Installation not required
- Husk can be removed without inspection
- Peeling quality will be same in spite of any sizes
- Low quality nut can also be peeled without any wastage
