

PATIENT IDENTIFICATION BANDS

Patient Identification bands is an important way to reduce patient safety risks. Patient misidentification continues to result in medication errors, transfusion errors, testing errors, wrong person procedures, and the discharge of infants to the wrong families. Today, with as many as one million people harmed by errors during treatment at hospitals each year, identification of patient using wristbands helps minimize medical errors and administrative issues can be handled efficiently.

Bio-X offers optimal and secure patient identification solutions for healthcare facilities.

Colour coding of wristbands facilitates rapid visual recognition of specific issues and can be modified as per the requirement of the organization.

We offer Patient Identification solutions for admissions, blood, mother and baby, paediatrics, disaster response, outpatient and emergency room purposes.
