## About Us

With detailed knowledge of several FRP products, tanks, scrubber systems, expansion joints, etc., we, **Shreya Polymers** started our business. As an **ISO 9001:2015** and CE certified company, we are running the business as a **manufacturer, trader, exporter and wholesaler/distributor**, we have gained faith of numerous customers by serving quality **FRP STP Tank, Chemical Storage Tank, Wet Scrubber, Polypropylene Tank, FRP Duct, Fume Extraction System**, etc. Employing hi-tech tools and machines, our entire product-line is made in accordance with international quality norms. Our tanks are offered in many sizes, shapes, designs, material and specifications to meet requirement of a large number of clients. High quality range and reasonable prices of the products bring to us a huge clientele, which includes companies belonging to **Automobile, Fertilizer, Pharma, Chemical, Steel, Distillery, Sugar Mill and Paper Mill industry**.

## Quality Assurance

Quality is the prime factor on which customers select a company and decide giving or not giving repeated orders to it. Knowing this, we have made ourselves focused toward producing, procuring and serving the commendable range. Under observation of experienced quality regulator, using finest grade Fibre glass, Resin, PP, PPGL and many other material, our product-line is made. They not just guide manufacturing workers but also examine entire array in the testing cell to ensure high quality, prior to making dispatch. Finishing, leak-proof nature and abrasion & chemicals resistance are few of the grounds on which we scrutinize our range of tanks. Our consistency in serving quality range and taking strict measures to ensure it have helped us in getting ISO 9001:2015 certification.

## Infrastructure

Spacious and well planned infrastructure gives strength to our experts in well executing all the business works. The spreading set up includes many departments such as research & development, storage, production, quality evaluation, accounting, etc. Our production unit is updated with many tools, equipment and machines that enhance the speed of our workers and output FRP Storage Tank, Scrubber System, FRP Pipe, Plastic Pickling Tank, etc. in a good speed. Further, we keep a stock of all the categories in our capacious warehouse, which has well connectivity with major roads & highways.

# Our Products

**FRP Storage Tank**

**FRP Tank**

**GRP Tank**

**GRP Water Tank**

**Storage Tank**

**HCL Storage Tank**

**PP Tank**

**PP Storage Tank**

**Polypropylene Pickling Tank**

**Pickling Tank**

**Fiber Glass Tank**

**MS Sulfuric Acid Storage Tank**

**Square Storage Tank**

**FRP Sewage Tank**

**Silver Plating Tank**

**FRP Reaction Vessels**

**FRP Aerator**

**PP FRP Blower**
