About Us

In the present day scenario, steel is a widely used material whose demand is increasing year after year in commercial as well as residential areas. Being the foremost choice of architects, steel is largely utilized in building construction, that is not just limited to construction industry but to other industries as well which includes Defense, Automotive, Dairy and Shipping, etc. Soft steel filaments or Steelwool is a necessary means to clean utensils, to lacquer and varnish, thus serving as a better cleansing material than others.

Purushottam Steelwool Industries, as the very name suggest deal in a huge variety of steel products that includes Steel Wool, Stainless Steel Wool, Steel Wool Wire, Steel Wool Powder and many more. We are a Manufacturer and Supplier of the aforementioned product range, that is developed by technically expert engineers with profound knowledge and creations of R&D professionals. We are known in the market for our reliable capabilities and outstanding service abilities, to bring forth quality assured range. Our company was established in 2009, with the sole mission to provide safer today and better tomorrow. Therefore, we stand courageously by establishing a reputed position in the market, which has developed with the guiding force and motivational support of Mr. Ameya Arun Deshpande.
