About Us

Regular practice of serving clients with premium grade products at competitive prices has enabled us, Lord Krishna Engineering Works, to establish a firm foothold in the market. We have earned a reputation of successfully meeting the end-to-end requirements of clients belonging to diverse industrial sectors. Our expertise in various types of Job work, manufacturing and consultancy services has helped us to win the trust, confidence, and appreciation from the clients. We design and develop a variety of Machine Parts, Tools & Fixtures, and so on in accordance with customers' specifications.

Based in Faridabad, Haryana, India, we are one of the leading Manufacturers, Exporters, Traders, Suppliers and Service Providers of Die Casting Parts, SPM Welding Machine, High Pressure Die Casting Machine parts, Jigs & Fixtures and many more. All these products are fabricated by use of high grade raw material which provides them a long productive life. Moreover, we develop these products according to the technical specification of international standards which enables us to offer a range of updated and innovative goods to the clients.

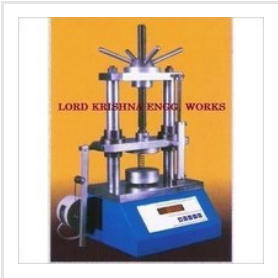

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	spm welding machine,plug gauges,plunger tip,shock absorber testing machine,endurance testing machine,floating carriage micrometer,leak testing machine,gear roll tester,box compression tester,pin gauge
No of Staff	12
Year of Establishment	2008
OEM Service Provided	No
ProductRange	spm welding machine,plug gauges,plunger tip,shock absorber testing machine,endurance testing machine,floating carriage micrometer,leak testing machine,gear roll tester,box compression tester,pin gauge

Our Products

Compression Testing Machine

Digital Spring Testing Machine

SPM Machine

Spring Testing Machine

Tensile Testing Machine

Shock Absorber Testing Machine

Shot Sleeve

Spring Load Testing Machine

Plunger Rods

Deep Freezer

Flexure Testing Machine

Cylindrical Pin Gauges

Ring Gauge

Snap Gauge

Plug Gauge

Tyre Testing Machine
