About Us

Eita Technologies, established in 1998 and based in Faridabad, Haryana, India, is a renowned manufacturer and supplier specializing in high quality electrical control solutions. Operating under the respected brand name Eita, we focus on delivering advanced Single Phase Servo Control Card and Stabilizer Control Card, designed to meet the rigorous demands of various industrial and commercial applications. With more than two decades of experience, we have earned a reputation for excellence in product innovation, durability, and performance. Our control cards are engineered with precision to ensure reliable voltage regulation and power stabilization, protecting sensitive electrical equipment from fluctuations and ensuring optimal operational efficiency. We prioritize quality at every stage of manufacturing, adhering strictly to industry standards and using superior grade components.

Our dedicated team of skilled engineers and technicians continuously enhances our product range by integrating the latest technological advancements. Customer satisfaction drives our business philosophy, and we strive to offer tailored solutions that address specific power control and stabilization challenges faced by our clients.
