## About Us

We, Synergy Engineers And Projects are a reputed manufacturer and exporter of huge range of excellent RO Water Treatment Plants and Bottling Plants. Our company has been successfully catering to the requirements of a huge base of clients through consistently providing superior grade of products. The huge line of products that we offer include RO Plants, Beverages Filling Machinery, Commercial RO Plants, RO Water Treatment Plant, Packaged Drinking Water Plant, Softener Plant, Spare Parts & Machines, D.M.Plant, Mineral Water Treatment Plant, Iron Remover Plant, Mineral Water Plant, Cold Drink Water Plant, Juice Plant, Dairy Plant, ETP Plant, HTP Plant, Beverages Filling and Packaging Machinery and many more. We provide RO Water Treatment Plants or Commercial RO Plants made by SS. We are a professionally managed organization that regards achieving total client satisfaction as the prime objective of the firm. Therefore, we plan all our business operations in such a manner that can be varied in accordance to the changing requirements of the clients.

It is due to the outstanding quality of our products, which include RO Plants for Commercial Industries, RO Water purifier, Domestic RO Water purifier, Water Softener for Home and Mineral Water Plant for RO, etc., that our company has emerged as one of the most preferred manufacturers in the huge industry. We carry every manufacturing process using latest technology and through high grade machines that are known for their high quality output. After the production processes are done, all the products are thoroughly tested in terms of their quality. This quality check is done under strict grounds that ensure that our range is completely defect free and are of the current standards of the industry.
