About Us

Adcon Technologies Limited is blessed to have the strong support of its valued clientele, spread across the country. Established in the year 1996, we are specializing in the field of Business and Technology. With a vision to acquire the status of leading market player, we are constantly working towards exceeding the expectations of our clients through quality approved range of indigenous products.

Our company is headed by highly qualified and technically sound Directors who possess rich expertise in the domain of elevators like Lift Rescue Device, Commercial Lift Rescue Device . The Directors of our company have worked with OTIS Elevators in their early days. We are named among the commendable manufacturers, suppliers and service providers in this competitive market. In the year 2001-2002, we have indigenously developed world class Elevator Automatic Rescue Device (ARD) after undertaking thorough research works. Presently, we have an Installed Base of more than 15,000 units across the nation, serving the needs of large number of elevator manufacturers & service providers. Safety is the most important factor when it comes to vertical transportation. We provide technologically advanced ARD system that ensure complete security of the passengers trapped in an elevator during power failure. If the power is not resumed within 3 seconds, the entire elevator control is automatically switched over to our ARD system, rescuing the trapped passengers to the nearest floor safely. Our well trained and skilled manpower is apt at handling repairing and after sales services.
