

CITRIC ACID MONOHYDRATE CHEMICAL

POWERING INDUSTRIES WITH PRECISION CHEMISTRY

Acid Orange Dyes, Black Nigrosine Powder, Citric Acid Monohydrate Chemical, Citric Acid Monohydrate Crystals, Direct Black Dye, Direct Fast Dye, Direct Red 12b Dyes, Liquid Methyl Violet Basic Dyes, Liquid Optical Brightener, Malachite Green Dye, Nigrosin Black Dyes, Nigrosin Black Water Soluble ODRG Dyes, Rhodamine B 540 Dyes, SSCRD Base Nigrosine Black Dyes, Silicon Base Defoamer Regular Chemical, etc.

NIGROSIN BLACK DYES

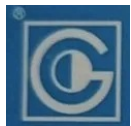

ACID ORANGE DYES

RHODAMINE B 540 DYES

About Us

G. C. Dyes & Chemicals is a trusted trader and supplier of premium-quality industrial dyes and chemicals, serving clients across various sectors with consistency and reliability. Based on a foundation of deep industry knowledge and a commitment to excellence, we specialize in offering a wide range of products including Nigrosin Black Water Soluble ODRG Dyes, Sodium Hydrosulphite, Direct Black Dye, and Nigrosine Powder. Our products are widely used in textile, paper, leather, and other industrial applications where color consistency and chemical performance are critical.

We ensure that all our offerings are sourced from reputed manufacturers and meet strict quality standards. Our efficient supply chain, competitive pricing, and client-centric approach have earned us the trust of a wide customer base. We are dedicated to maintaining long-term relationships by delivering on time, every time, and ensuring complete customer satisfaction. With a well-managed distribution network and a strong focus on customer support, G. C. Dyes & Chemicals continues to be a preferred partner for high-performance dyes and chemicals in the industry.
